v.

Defendant.

Case No. 3:19-cv-86-SI

**ORDER REGARDING EXPERT
WITNESSES AND PENDING
DAUBERT MOTIONS**

Michael H. Simon, District Judge.

The Court has reviewed the parties' first two waves of pretrial document filings. The Court notes that Plaintiffs have identified three expert witnesses (John Berg, Thomas Andrukonis, and Justin Lewis), and Defendant has moved to exclude the testimony of all three experts. The Court also notes that Defendant has identified three expert witnesses (R. Jacob Baker, Ryan Fayhee, and Dr. Jennifer Marietta-Westberg) and that Plaintiffs have moved to exclude the testimony of Mr. Fayhee and Dr. Marietta-Westberg (but not Mr. Baker). Based on

the size, number, and scope of the parties' expert submissions and motions to exclude, the Court directs that both sides file the following documents not later than December 29, 2023:

1. A summary, not to exceed three double-spaced pages, separately describing the role of each of your three expert witnesses and including an "expert-to-expert mapping" of each side's expert's anticipated contributions at trial (both for and against each issue). This summary shall include a description of which expert will be responsible for what issues and opinions and by whom is that expert expected to be opposed or rebutted and on what issues and how?

2. A separate summary, also not to exceed three double-spaced pages, explaining your respective motions to exclude (*i.e.*, your *Daubert* motions), by identifying what precisely you contend is deficient or insufficient with the opposing expert's proffered testimony.

CONCLUSION

Each side shall file the above-described two documents not later than December 29, 2023, and shall comply with the page limitation of three double-spaced pages per document.

IT IS SO ORDERED.

DATED this 15th day of December, 2023.
